

# LUBE-PRO

## LUBRICITY SUPPLEMENT FOR DIESEL FUEL WITH SURFACTANT

**Lube-Pro** is formulated to increase the lubricity value of all types of diesel fuel, especially ultra low sulfur diesel (ULSD) fuel for on-road vehicles, as mandated by the U.S. Environmental Protection Agency.

### **BENEFITS:**

- **Prevents wear and potential seizing of any and all moving parts in diesel fuel injection systems.**
- **Helps engines to run smoother and quieter.**
- **Helps engines maintain combustion efficiency and potentially improve mileage.**
- **Promotes easier starting and smoother idling.**

**Lube-Pro** for diesel fuel can be used in any type of middle-distillate diesel fuel to improve engine performance.

Diesel fuel treated with **Lube-Pro** for diesel fuel exceeds ASTM D 975-04c (Standard specification for diesel fuel oils) with respect of HFRR Lubricity Standards. **LubePro** for diesel fuel also exceeds the EMA (Engine Manufacturers Association) standard for lubricity.

### **TREAT RATIO:**

1 quart (32 oz.) of **Lube-Pro** for diesel fuel will treat 250 gallons of diesel fuel.

1 gallon will treat 1,000 gallons of diesel fuel.

Always add the product to the fuel tank prior to filling to assure good mixing.

**We Made It First. We Make It Best.**
